

Welcome Home!

Hello! My name is Jinman Li and I am going to be your Resident Assistant (RA) this year. I live in Morgan Court and I am here to help and give advice during your stay here in Edinburgh. I am studying Stem Cell Biology with Management in my fourth year. I enjoy exploring and travelling which Edinburgh definitely accommodates. Please add me on Facebook (Jinman Li) and please don't hesitate if you need any help or answers from me!

Morgan Court & Darroch Court:

A very warm welcome to your new accommodation and to the beautiful city of Edinburgh. Morgan Court & Darroch Court. In here, you will be part of a very big community which we hope you will grow to love and feel at home in. As a resident, you will have the access to some great facilities including bike storage, laundry facilities, a common room with many forms of entertainment and a wonderful courtyard to relax in. We also have a site office to help you with lock-outs and maintenance issues. You are living right in the middle of Edinburgh, with lots of clubs, bars, shops and restaurants nearby.

We are here for you:

Living away from home for the first time can be very scary, especially if you are moving across the ocean. We as your Resident Assistants are here to provide you with a support network to make your first year of university truly unforgettable! There will be 5 of us living across the two sites with you, organising many events, building a community and making sure that whenever you have any problems that there is someone you can turn to for help and advice. We are here to answer your question and happy to chat with you if you are feeling homesick or just need a friendly face to speak with. Please feel free to approach us!
